

To Michael Powell:

PLease delay the vote on Broadcast Ownership so that there can be democratic debate on this issue. Most Americans depend on TV for their news, and further consolidation of the TV media will severely limit the diversity of opinion. The TV media is already consolidated, and the diversity of programming is already limited as a result of previous consolidation.

I believe it is a dangerous limitation of freedom of the press to further consolidate the TV media.

Thank you for the privelege of being able to comment on this prospective ruling.
